

ControlUnit::NumBalanced

```
graph LR; A[ControlUnit::NumBalanced] --> B[studentGroup::getClassCode]; A --> C[studentGroup::getUcCode];
```

The diagram illustrates a call from the `ControlUnit::NumBalanced` variable to two methods in the `studentGroup` object. The variable is represented by a grey box on the left, and the two methods are represented by white boxes on the right. Two blue arrows originate from the right side of the `ControlUnit::NumBalanced` box and point to the left side of the `studentGroup::getClassCode` and `studentGroup::getUcCode` boxes.

studentGroup::getClassCode

studentGroup::getUcCode
