

ControlUnit::formatConflicts

```
graph LR; A[ControlUnit::formatConflicts] --> B[lessontime::getHour]; A --> C[lessontime::getMinute];
```

A diagram showing a call from `ControlUnit::formatConflicts` to two methods of the `lessontime` class: `lessontime::getHour` and `lessontime::getMinute`. The source method is in a grey box, and the target methods are in white boxes. Blue arrows indicate the direction of the calls.

lessontime::getHour

lessontime::getMinute
